

# Javidan Karimov

Experienced in Erection, Commissioning, Quality Control principles, testing methodologies with a demonstrated history of working in the oil and gas industry and power stations. Skilled in negotiation, building relationships, managing partnership with clients, suppliers from release to completion of the projects, designing strategies, cross- functional teams, demonstrating communication skills, and making in time decisions during challengeable situations.

## PERSONAL INFORMATION

Mobile: +994 70 200 11 67  
Date of birth: 01.07.1996  
E-mail: [cavidan.adiloglu@mail.ru](mailto:cavidan.adiloglu@mail.ru)

## WORK EXPERIENCE

**Oct 2024 – Present**      *Erection and Commissioning Junior Engineer – BCC Group/ 1280 MW Thermal Power Station Mingachevir Project*  
**Responsibilities:**      *Project*

- Erection and commissioning of high-pressure natural gas centrifugal compressors, along with their auxiliaries (such as the lube oil console, dry gas sealing system, etc.), ensuring compliance with project specifications and international standards.
- Led a team of technicians in executing loop checks, troubleshooting field devices, and interfacing with control systems, including DCS and PLC platforms.
- Actively contributed to enhancing system reliability, performing safety testing, and ensuring comprehensive documentation throughout all project phases.
- Managed subcontractors, including Franco Tosi and John Crane, and facilitated communication between subcontractors and the customer.
- Oversaw material management and provided support to subcontractors in resolving shortages whenever possible.

**Dec 2023 – Mar 2024**      *E&I Quality Control Lead Inspector at Ilk construction – SOCAR Downstream Project*

### **Responsibilities:**

- Conducted inspections of products, materials, and processes to ensure compliance with quality standards.
- Led and mentored inspection and quality control teams to maintain consistent procedures.
- Maintained accurate documentation of inspections, test results, and quality activities.
- Drove process improvements and implemented corrective and preventive actions.
- Ensured compliance with industry standards, regulations, and company policies.
- Managed supplier quality through audits and performance evaluations.
- Performed root cause analysis to effectively resolve quality issues.
- Developed and delivered training programs for quality control personnel.
- Collaborated with cross-functional teams and reported quality performance to management

**Mar 2021 – Dec 2023**     *E&I Quality Control Inspector at Ilk construction / SOCAR Downstream Project*

**Responsibilities:**

- Conducted material receipt inspections and raised non-conformance reports for certification and equipment issues.
- Executed inspections based on approved ITPs, reviewed vendor documentation, and ensured compliance with project specifications and industry standards.
- Coordinated with PSCM/Projects to resolve quality issues and ensured health and safety standards were adhered to.
- Performed pre-commissioning, testing, and commissioning of systems including Fire & Gas, SIS, ESD, PCS, and hydraulic power units (HPU).
- Troubleshoot and maintained instrumentation and control systems, including transmitters (flow, pressure, level, temperature), control valves, and logic interlocks.
- Led calibration, overhauling, and maintenance of electrical and instrumentation equipment, and performed loop checking and functional testing of field devices.
- Supported the commissioning of HVAC systems, motor run tests, and signal simulation for DCS interface I/O verification.

**Jul 2019 – Jul 2020**     *Electrical Team Leader at Ustay – SOCAR AzerKimya Project*

**Responsibility:**

- Led the installation of cable trays, ladders, supports, and switchgear for LV/MV systems.
- Managed the mounting and alignment of power transformers, LV motors, generators, and heating units.
- Supervised the installation of distribution boards (DB/MDB), heater panels, and switchboards in electrical rooms.
- Oversaw the pulling, routing, and dressing of LV/MV/HV and instrument cables per layout and schedule.
- Directed the connection and termination of power and control cables with proper tagging and identification.
- Managed the installation of lighting systems, small power equipment, and grounding systems.
- Ensured compliance with safety standards and technical specifications throughout the installation phases.

**Jul 2017 – May 2018**     *Electrical Technician at Ustay – SOCAR Polymer Project*

**Responsibility:**

- Ensured proper connections during I/O checks and power supply verification.
- Conducted equipment testing and executed modifications as required.
- Erected bulk equipment and managed cable routing fabrication and installation.
- Monitored daily construction progress and reviewed punch list accuracy.
- Compiled and submitted daily progress reports..

## SKILLS

- *Electrical & Instrumentation Installation*
- *Commissioning & Pre-commissioning*
- *Loop Checking & Functional Testing*
- *Control Systems: DCS, PLC, SIS, ESD, F&G*
- *Calibration of Instruments (Flow, Pressure, Level, Temp)*
- *QA/QC Procedures & Documentation*
- *Root Cause Analysis & Troubleshooting*
- *Team Leadership & Supervision*
- *Subcontractor Coordination*
- *International Standards Compliance (ATEX, IEC, ISO, etc.)*

## SOFTWARE SKILLS

- *DCS/PLC Platforms*
- *Instrument Calibration Tools (e.g., HART 475 Communicator)*
- *Microsoft Office Suite (Excel, Word, PowerPoint)*
- *AutoCAD (for P&ID and loop diagram review)*
- *QA/QC Tools: ITP documentation, NCR logs*
- *ERP/Document Control Systems*

## EDUCATION

|                     |   |
|---------------------|---|
| <b>2017 - 2018</b>  | <b><i>Sumgayit State College</i></b><br>Electrical Technician                           |
| <b>2011 – 2015</b>  | <b><i>Baku State University of Social Economics College</i></b><br>Design and Architect |
| <b>2025-Present</b> | <b><i>Dagestan State Agrarian University -Electroenergetic</i></b>                      |

## CERTIFICATIONS&TRAINING

- *Fundamentals of Standards by TCS LLC - Jul 2023*
- *Fundamentals of HSE by TCS LLC - Jun 2023*
- *ATEX/ IECEx Awareness*
- *Permit to Work (PTW) Awareness*
- *LOTO (Lockout Tagout) Awareness*

## LANGUAGE SKILLS

**Azerbaijani** – Native

**English** – Professional Working Proficiency

**Russian** – Basic / Intermediate (if applicable)
